**Design and manufacturing of
custom-made equipment**

Laflamme Industries is specialized in designing and manufacturing custom-made equipment that meet your specific needs.

Our equipments meet the most exacting standards [CAN/CSA, ASME, ISO] and other safety requirements like OHS regulations.

A wide range of equipment :

- ✓ Assembly jigs;
- ✓ Custom stand;
- ✓ Lifting devices;
- ✓ Test bench;
- ✓ Machine and equipment structures;
- ✓ Lifting platforms;
- ✓ Specialized dollies and trolleys.

Modification and repair of **standard and/or existing equipment**

Your equipments have to meet new needs? We can perform structural modifications and reapprove them according to your evolving situations.

Our equipments are:

- ✓ Designed by senior engineers;
- ✓ Built according to plans signed and sealed by a professional engineer;
- ✓ Assembled by CWB certified welders;
- ✓ Assembled under the supervision of a qualified engineer;
- ✓ Validated by load test;
- ✓ Certified with a nameplate.

Finite element analysis (FEA) expertise:

- ✓ Laflamme Industries uses finite element analysis (ANSYS™ software) to calculate and validate constraints and displacements on developed equipments.

YOUR PARTNER FOR
10 YEARS

SOME OF OUR CUSTOMERS INCLUDE:

- Bombardier Transport
- Bridgestone Canada
- Messier-Bugatti-Dowty
- Ganotec / Kiewit
- KBAC Constructors
- CAE
- Cascades
- Veolia
- Rio Tinto
- Garier
